Read the following text. Choose the best word(s) for each numbered blank and mark A, B, C or D on ANSWER SHEET 1. (10 points)

The Internet affords anonymity to its users, a blessing to privacy and freedom of speech. But that very anonymity is also behind the explosion of cyber-crime that has 1 across the Web.

Can privacy be preserved 2 bringing safety and security to a world that seems increasingly 3 ?

Last month, Howard Schmidt, the nation's cyber-czar, offered the federal government a 4 to make the Web a safer place—a “voluntary trusted identity” system that would be the high-tech 5 of a physical key, a fingerprint and a photo ID card, all rolled 6 one. The system might use a smart identity card, or a digital credential 7 to a specific computer, and would authenticate users at a range of online services.

The idea is to 8 a federation of private online identity systems. User could 9 which system to join, and only registered users whose identities have been authenticated could navigate those systems. The approach contrasts with one that would require an Internet driver's license 10 by the government.

Google and Microsoft are among companies that already have these “single sign-on” systems that make it possible for users to 11 just once but use many different services.

12 the approach would create a “walled garden” in cyberspace, with safe “neighborhoods” and bright “streetlights” to establish a sense of a 13 community.

Mr. Schmidt described it as a “voluntary ecosystem” in which “individuals and organizations can complete online transactions with 14 , trusting the identities of each other and the identities of the infrastructure 15 which the transaction runs”.

Still, the administration's plan has 16 privacy rights activists. Some applaud the approach; others are concerned. It seems clear that such a scheme is an initiative push toward what would 17 be a compulsory Internet “driver's license” mentality.

The plan has also been greeted with 18 by some computer security experts, who worry that the “voluntary ecosystem” envisioned by Mr. Schmidt would still leave much of the Internet 19 . They argue that all Internet users should be 20 to register and identify themselves, in the same way that drivers must be licensed to drive on public roads.

Section II Reading Comprehension

Part A

Directions:

Read the following four texts. Answer the questions after each text by choosing A, B, C or D. Mark your answers on **ANSWER SHEET 1**. (40points)

Text 1

Ruth Simmons joined Goldman Sachs's board as an outside director in January 2000: a year later she became president of Brown University. For the rest of the decade she apparently managed both roles without attracting much eroticism. But by the end of 2009 Ms. Simmons was under fire for having sat on Goldman's compensation committee; how could she have let those enormous bonus payouts pass unremarked? By February the next year Ms. Simmons had left the board. The position was just taking up too much time, she said.

Outside directors are supposed to serve as helpful, yet less biased, advisers on a firm's board. Having made their wealth and their reputations elsewhere, they presumably have enough independence to disagree with the chief executive's proposals. If the sky, and the share price is falling, outside directors should be able to give advice based on having weathered their own crises.

The researchers from Ohio University used a database that covered more than 10,000 firms and more than 64,000 different directors between 1989 and 2004. Then they simply checked which directors stayed from one proxy statement to the next. The most likely reason for departing a board was age, so the researchers concentrated on those "surprise" disappearances by directors under the age of 70. They found that after a surprise departure, the probability that the company will subsequently have to restate earnings increased by nearly 20%. The likelihood of being named in a federal class-action lawsuit also increases, and the stock is likely to perform worse. The effect tended to be larger for larger firms. Although a correlation between them leaving and subsequent bad performance at the firm is suggestive, it does not mean that such directors are always jumping off a sinking ship. Often they "trade up." Leaving riskier, smaller firms for larger and more stable firms.

But the researchers believe that outside directors have an easier time of avoiding a blow to their reputations if they leave a firm before bad news breaks, even if a review of history shows they were on the board at the time any wrongdoing occurred. Firms who want to keep their outside directors through tough times may have to create incentives. Otherwise outside directors will follow the example of Ms. Simmons, once again very popular on campus.

21. According to Paragraph 1, Ms. Simmons was criticized for _____.
[A]gaining excessive profits
[B]failing to fulfill her duty
[C]refusing to make compromises
[D]leaving the board in tough times
22. We learn from Paragraph 2 that outside directors are supposed to be _____.
[A]generous investors
[B]unbiased executives
[C]share price forecasters
[D]independent advisers
23. According to the researchers from Ohio University after an outside director's surprise departure, the firm is likely to _____.
[A]become more stable
[B]report increased earnings
[C]do less well in the stock market
[D]perform worse in lawsuits
24. It can be inferred from the last paragraph that outside directors _____.
[A]may stay for the attractive offers from the firm
[B]have often had records of wrongdoings in the firm
[C]are accustomed to stress-free work in the firm
[D]will decline incentives from the firm
25. The author's attitude toward the role of outside directors is _____.
[A]permissive
[B]positive
[C]scornful
[D]critical

TEXT 1 参考答案

21. B. 细节题：原文第1段，倒数第3行的 **how could she have let those enormous bonus payouts pass unremarked?** 就是没有完成自己的任务。
22. D. 细节题：原文中出现 **outside directors** 有几处，**helpful but less biased advisor**，但是B选项用的是 **executive**，拼凑答案，C原文是 **having weathered their own crises**，意思是读过危机不是预测。
23. C. 细节题：原文是若干个并列，**stock is likely to perform worse** 对应答案，迷惑选项是B，但是主语不一致 20%是 **probability** 不是 **earnings**。
24. A. 推理题：原文对应 **firms who want to说想留住 outside director 就是增加 incentive**。
25. D. 态度题：文章各个段落都说 **outside director** 的方面。因此是 **critical**。

Text 2

Whatever happened to the death of newspaper? A year ago the end seemed near. The recession threatened to remove the advertising and readers that had not already fled to the internet. Newspapers like the San Francisco Chronicle were chronicling their own doom. America's Federal Trade commission launched a round of talks about how to save newspapers. Should they become charitable corporations? Should the state subsidize them? It will hold another meeting soon. But the discussions now seem out of date.

In much of the world there is the sign of crisis. German and Brazilian papers have shrugged off the recession. Even American newspapers, which inhabit the most troubled come of the global industry, have not only survived but often returned to profit. Not the 20% profit margins that were routine a few years ago, but profit all the same.

It has not been much fun. Many papers stayed afloat by pushing journalists overboard. The American Society of News Editors reckons that 13,500 newsroom jobs have gone since 2007. Readers are paying more for slimmer products. Some papers even had the nerve to refuse delivery to distant suburbs. Yet these desperate measures have proved the right ones and, sadly for many journalists, they can be pushed further.

Newspapers are becoming more balanced businesses, with a healthier mix of revenues from readers and advertisers. American papers have long been highly unusual in their reliance on ads. Fully 87% of their revenues came from advertising in 2008, according to the Organization for Economic Cooperation & Development (OECD). In Japan the proportion is 35%. Not surprisingly, Japanese newspapers are much more stable.

The whirlwind that swept through newsrooms harmed everybody, but much of the damage has been concentrated in areas where newspaper are least distinctive. Car and film reviewers have gone. So have science and general business reporters. Foreign bureaus have been savagely cut off. Newspapers are less complete as a result. But completeness is no longer a virtue in the newspaper business.

26. By saying "Newspapers like ... their own doom" (Lines 3-4, Para. 1), the author indicates that newspaper .

- [A]neglected the sign of crisis
- [B]failed to get state subsidies
- [C]were not charitable corporations
- [D]were in a desperate situation

27. Some newspapers refused delivery to distant suburbs probably because .

- [A]readers threatened to pay less
- [B]newspapers wanted to reduce costs
- [C]journalists reported little about these areas
- [D]subscribers complained about slimmer products

28. Compared with their American counterparts, Japanese newspapers are much more stable because they .

- [A]have more sources of revenue
- [B]have more balanced newsrooms
- [C]are less dependent on advertising
- [D]are less affected by readership

29. What can be inferred from the last paragraph about the current newspaper business?

- [A]Distinctiveness is an essential feature of newspapers.
- [B]Completeness is to blame for the failure of newspaper.
- [C]Foreign bureaus play a crucial role in the newspaper business.
- [D]Readers have lost their interest in car and film reviews.

30. The most appropriate title for this text would be .

- [A]American Newspapers: Struggling for Survival
- [B]American Newspapers: Gone with the Wind
- [C]American Newspapers: A Thriving Business

[D]American Newspapers: A Hopeless Story

TEXT 2 参考答案

26. D. 定义题: 根据上下文猜句子的含义, 后句 American.....save newspaper 中出现了 save 说明前面的观点一定是不好的才 save, 因此选 D。
27. B. 推理题: 定位处前一句是 readers are paying more for slimmer newspaper. 因此说明人们多付钱, 报纸很薄, 节约成本, 定位处有 even 表示并列, 说明前后的原因一致都是成本问题。
28. C. 推理题: 日本美国原文用了对比的方法说广告占得比例不一样, 因此问题是广告收入来源。
29. B. 推理题: A 选项中有 essential, 文章中是说 distinctiveness 重要而非必要, 有问题, 原文最后谈到了 completeness 是美国报纸一直追求的完整性也制约其发展, 因此它是美国报纸表现不好的原因
30. A. 主旨题: 文章分析美国报纸出现的问题, 说明要挽救。

Text 3

We tend to think of the decades immediately following World War II as a time of prosperity and growth, with soldiers returning home by the millions, going off to college on the G. I. Bill and lining up at the marriage bureaus.

But when it came to their houses, it was a time of common sense and a belief that less could truly be more. During the Depression and the war, Americans had learned to live with less, and that restraint, in combination with the postwar confidence in the future, made small, efficient housing positively stylish.

Economic condition was only a stimulus for the trend toward efficient living. The phrase “less is more” was actually first popularized by a German, the architect Ludwig Mies van der Rohe, who like other people associated with the Bauhaus, a school of design, emigrated to the United States before World War II

and took up posts at American architecture schools. These designers came to exert enormous influence on the course of American architecture, but none more so than Mies.

Mies’s signature phrase means that less decoration, properly organized, has more impact than a lot. Elegance, he believed, did not derive from abundance. Like other modern architects, he employed metal, glass and laminated wood-materials that we take for granted today but that in the 1940s symbolized the future. Mies’s sophisticated presentation masked the fact that the spaces he designed were small and efficient, rather than big and often empty.

The apartments in the elegant towers Mies built on Chicago’s Lake Shore Drive, for example, were smaller-two-bedroom units under 1,000 square feet than those in their older neighbors along the city’s Gold Coast. But they were popular because of their airy glass walls, the views they afforded and the elegance of the buildings’ details and proportions, the architectural equivalent of the abstract art so popular at the time.

The trend toward “less” was not entirely foreign. In the 1930s Frank Lloyd Wright started building more modest and efficient houses-usually around 1,200 square feet than the spreading two-story ones he had designed in the 1890s and the early 20th century.

The “Case Study Houses” commissioned from talented modern architects by California Arts & Architecture magazine between 1945 and 1962 were yet another homegrown influence on the “less is more” trend. Aesthetic effect came from the landscape, new materials and forthright detailing. In his Case Study House, Ralph everyday life – few American families acquired helicopters, though most eventually got clothes dryers – but his belief that self-sufficiency was both desirable and inevitable was widely shared.

31. The postwar American housing style largely reflected the Americans’ .

- [A]prosperity and growth
[B]efficiency and practicality
[C]restraint and confidence
[D]pride and faithfulness

32. Which of the following can be inferred from Paragraph 3 about Bauhaus?
- [A]It was founded by Ludwig Mies van der Rohe.
 - [B]Its designing concept was affected by World War II.
 - [C]Most American architects used to be associated with it.
 - [D]It had a great influence upon American architecture.
33. Mies held that elegance of architectural design .
- [A]was related to large space
 - [B]was identified with emptiness
 - [C]was not reliant on abundant decoration
 - [D]was not associated with efficiency
34. What is true about the apartments Mies building Chicago's Lake Shore Drive?
- [A]They ignored details and proportions.
 - [B]They were built with materials popular at that time.
 - [C]They were more spacious than neighboring buildings.
 - [D]They shared some characteristics of abstract art.
35. What can we learn about the design of the "Case Study House"?
- [A]Mechanical devices were widely used.
 - [B]Natural scenes were taken into consideration
 - [C]Details were sacrificed for the overall effect.
 - [D]Eco-friendly materials were employed.

TEXT 3 参考答案

31. C. 细节题: 原文 **restraint, in combination with the postwar confidence** 对应。
32. D. 推理题: 定位是 **Bauhaus**, 对应选项与原文, 只有 D 对。
33. C. 细节题: 原文 **elegance did not derive from abundance** 。
34. D. 细节题: 原文 **But** 后有 **the architectural equivalent of the abstract art** 。
35. B. 推理题: 原文 **Aesthetic effect came form the landscape, new materials and forthright detailing**。

Text 4

Will the European Union make it? The question would have sounded strange not long ago. Now even the project's greatest cheerleaders talk of a continent facing a "Bermuda triangle" of debt, population decline and lower growth.

As well as those chronic problems, the EU face an acute crisis in its economic core, the 16 countries that use the single currency. Markets have lost faith that the euro zone's economies, weaker or stronger, will one day converge thanks to the discipline of sharing a single currency, which denies uncompetitive members the quick fix of devaluation.

Yet the debate about how to save Europe's single currency from disintegration is stuck. It is stuck because the euro zone's dominant powers, France and Germany, agree on the need for greater harmonization within the euro zone, but disagree about what to harmonies.

Germany thinks the euro must be saved by stricter rules on borrow spending and competitiveness, barked by quasi-automatic sanctions for governments that do not obey. These might include threats to freeze EU funds for poorer regions and EU mega-projects and even the suspension of a country's voting rights in EU ministerial councils. It insists that economic co-ordination should involve all 27 members of the EU club, among whom there

is a small majority for free-market liberalism and economic rigour; in the inner core alone, Germany fears, a small majority favour French interference.

A “southern” camp headed by French wants something different: “European economic government” within an inner core of euro-zone members. Translated, that means politicians intervening in monetary policy and a system of redistribution from richer to poorer members, via cheaper borrowing for governments through common Eurobonds or complete fiscal transfers. Finally, figures close to the France government have murmured, euro-zone members should agree to some fiscal and social harmonization: e.g., curbing competition in corporate-tax rates or labour costs.

It is too soon to write off the EU. It remains the world’s largest trading block. At its best, the European project is remarkably liberal: built around a single market of 27 rich and poor countries, its internal borders are far more open to goods, capital and labour than any comparable trading area. It is an ambitious attempt to blunt the sharpest edges of globalization, and make capitalism benign.

36. The EU is faced with so many problems that _____.
[A] it has more or less lost faith in markets
[B] even its supporters begin to feel concerned
[C] some of its member countries plan to abandon euro
[D] it intends to deny the possibility of devaluation
37. The debate over the EU’s single currency is stuck because the dominant powers _____.
[A] are competing for the leading position
[B] are busy handling their own crises
[C] fail to reach an agreement on harmonization
[D] disagree on the steps towards disintegration
38. To solve the euro problem, Germany proposed that _____.
[A] EU funds for poor regions be increased
[B] stricter regulations be imposed
[C] only core members be involved in economic co-ordination
[D] voting rights of the EU members be guaranteed
39. The French proposal of handling the crisis implies that _____.
[A] poor countries are more likely to get funds
[B] strict monetary policy will be applied to poor countries
[C] loans will be readily available to rich countries
[D] rich countries will basically control Eurobonds
40. Regarding the future of the EU, the author seems to feel _____.
[A] pessimistic
[B] desperate
[C] conceited
[D] hopeful

TEXT 4 参考答案

36. B. 推理题：第一段 But 后说 cheerleader 觉得 EU 有 debt, decline 和 lower growth, 这些就是原文定位的 many problems.
37. C. 推理题：三段论德法对欧元区和谐上达成一致但如何和谐有分歧。

38. B. 细节题: 原文对应 **by stricter rules on....** 。

39. A. 推理题: 原文对应 **a system of redistribution from richer to poorer members, via cheaper borrowing for governments through common Eurobonds.**

40. D. 态度题: 文章最后总结认为 EU 是 **world's largest trading block**. 最后一句 **it is an ambitious attempt to blunt the sharpest edges of globalization, and make capitalism benign** 都是说 EU 正面的信息。

Part B

Directions:

Read the following text and answer the questions by finding information from the right column that corresponds to each of the marked details given in the left column. There are two extra choices in the right column. Mark your answer on **ANSWER SHEET 1**. (10 points)

Leading doctors today weigh in on the debate over the government's role in promoting public health by demanding that ministers impose "fat taxes" on unhealthy food and introduce cigarette-style warnings to children about the dangers of a poor diet.

The demands follow comments made last week by the health secretary, Andrew Lansley, who insisted the government could not force people to make healthy choices and promised to free businesses from public health regulations.

But senior medical figures want to shop fast-food outlets opening near schools, restrict advertising of products high in fat, salt or sugar, and limit sponsorship of sports events by fast-food products such as McDonald's.

They argue that government action is necessary to curb Britain's addiction to unhealthy food and help halt spiraling rates of obesity, diabetes and heart disease. Professor Terence Stephenson, president of the Royal College of Paediatrics and Child Health, said that the consumption of unhealthy food should be seen to be just as damaging as smoking or excessive drinking.

"Thirty years ago, it would have been inconceivable to have imagined a ban on smoking in the workplace or in pubs, and yet that is what we have now. Are we willing to be just as courageous in respect of obesity? I would suggest that we should be," said the leader of the UK's children's doctors.

Lansley has alarmed health campaigners by suggesting he wants industry rather than government to take the lead. He said that manufactures of crisps and candies could play a central role in the Change4Life campaign, the centerpiece of government efforts to boost healthy eating and fitness. He has also criticized the celebrity chef Jamie Oliver's high-profile attempt to improve school lunches in England as an example of how "lecturing" people was not the best way to change their behavior.

Stephenson suggested potential restrictions could include banning TV advertisements for foods high in fat, salt or sugar before 9 pm and limiting them on billboards or in cinemas. "If we were really bold, we might even begin to think of high-calorie fast food in the same way as cigarettes-by setting strict limits on advertising, product placement and sponsorship of sports events," he said.

Such a move could affect firms such as McDonald's, which sponsors the youth coaching scheme run by the Football Association. Fast-food chains should also stop offering "inducements" such as toys, cute animals and mobile phone credit to lure young customers, Stephenson said.

Professor Dinesh Bhugra, president of the Royal College of Psychiatrists, said: "if children are taught about the impact that food had on their growth, and that some things can harm, at least information is available up front."

He also urged councils to impose "fast-food-free zones" around schools and hospitals-areas within which takeaways cannot open.

A Department of Health spokesperson said: "We need to create a new vision for public health where all of society works together to get healthy and live longer. This includes creating a new 'responsibility deal' with business, built on social responsibility, not state regulation. Later this year, we will publish a white paper setting out exactly how we will achieve this."

The food industry will be alarmed that such senior doctors back such radical moves, especially the call to use some of the tough tactics that have been deployed against smoking over the last decade.

- | | |
|---|--|
| | A. "fat taxes" should be imposed on fast-food producers such as McDonald's |
| 41. Andrew Lansley held that | B. The government should ban fast-food outlets in the neighborhood of schools. |
| 42. Terence Stephenson agreed that | C. "lecturing" was an effective way to improve school lunches in England |
| 43. Jamie Oliver seemed to believe that | D. cigarette-style warnings should be introduced to children about the dangers of a poor diet |
| 44. Dinesh Bhugra suggested that | E. The producers of crisps and candies could contribute significantly to the Change4Life campaign. |
| 45. A Department of Health spokesperson proposed that | F. parents should set good examples for their children by keeping a healthy diet at home. |
| | G. the government should strengthen the sense of responsibility among businesses. |

Part B 参考答案

In this section there is a text in English. Translate it into Chinese, write your translation on **ANSWER SHEET 2.** (15points)

Who would have thought that, globally, the IT industry produces about the same volumes of greenhouse gases as the world's airlines do-rough 2 percent of all CO2 emissions?

Many everyday tasks take a surprising toll on the environment. A Google search can leak between 0.2 and 7.0 grams of CO2 depending on how many attempts are needed to get the "right" answer. To deliver results to its users quickly, then, Google has to maintain vast data centres round the world, packed with powerful computers. While producing large quantities of CO2, these computers emit a great deal of heat, so the centres need to be well air-conditioned, which uses even more energy.

However, Google and other big tech providers monitor their efficiency closely and make improvements. Monitoring is the first step on the road to reduction, but there is much to be done, and not just by big companies.

翻译参考答案

从全球范围来看,有谁会想到IT行业释放的温室气体与全球航空公司产生的一样多呢?它大约占总二氧化碳总排量的2%。

许多日常工作对环境造成了令人震惊的破坏。根据每次你搜索并得到正确答案的尝试次数,谷歌会排放0.2至7克的二氧化碳。为了迅速将结果传递给用户,谷歌在全球设置了大量充斥着能量巨大的电脑的数据中心。这些电脑在排放大量二氧化碳的同时,也产生大量的能量。因此,这些数据中心需要良好的空调降温,这又会同时产生大量的能量。

然而,谷歌和其他技术提供商严密检测他们的效果并不断进行改进。监控是减排的第一步,但这仍任重道远,且不仅只由大公司来承担。

Section IV Writing

Part A

47. Directions:

Suppose your cousin Li Ming has just been admitted to a university. Write him/her a letter to

- 1) congratulate him/her, and
- 2) give him/her suggestions on how to get prepared for university life.

You should write about 100 words on ANSWER SHEET 2.

Do not sign your own name at the end of the letter. Use "Zhang Wei" instead.

Do not write the address.(10 points)

Part B

48. Directions:

Write an essay based on the following chart. In your writing, you should

- 1) interpret the chart and
- 2) give your comments

You should write at least 150 words.

Write your essay on ANSWER SHEET 2.(15 points)

2008、2009年国内轿车市场部分品牌市场份额示意图

小作文参考答案

【曲静老师版】

Dear Li Ming,

We are very happy to know that you have successfully passed the college entrance examination this year and have been admitted into Peking University. Allow us to give our most sincere congratulations on this exciting occasion.

You have all along been working hard at your professional studies, and you are excellent in most subjects. Your success shows that only hard work can yield good results, so I suggest that you should make a great progress in university life.

We take this opportunity to express our best wishes to you. Wish you greater achievements in your college education.

Yours sincerely,
Zhang Wei

【马鹏老师版】

Dear Ming,

Congratulations! I am glad to hear that you have been admitted by MIT. Your efforts and commitment have been paid off. You are the honor of our family.

Here come some my own advices of being a pre college student. First and foremost, you need to improve your communication because you will meet different people with different personalities in campus. Moreover, reading some reference books will help you to accumulate more knowledge and terms, which boost your competitiveness in campus.

Once again congratulate for your achievement!

Yours sincerely,
Zhang Wei

大作文参考答案

As is shown in the bar chart above, dramatic changes have taken place in the autos market shares within two years (from 2008 to 2009). The most obvious change was the market share of national brand, which had increased nearly by 10%, while Japan's autos market share decreased roughly by 10%. The percentage of the US autos remained stable between 2008 and 2009.

There are numerous reasons accounting for the phenomenon and I would like to explore a few of the most important ones here. Above all, as the development of technique and knowledge in native companies, a growing number of autos corporation developed many quality autos. Therefore, the national people changed the attitude to the native brands and acknowledge them. What's more, an overwhelming majority of people have been affected by the country patriotism ideology, partly owing to some actions of Japan triggering the emotion of people. Finally, Toyota brake error accidents significantly affects Japanese autos' reputations and images. Safety concerns drove customers away from Japanese products. Additionally, Fuel price drove consumers away from those American petrol digging and luxury autos. So it is not difficult to observe their steady performance.

Based on what has been discussed above, we may reasonably conclude that the tendency described in graphic will continue for quite a long time. Hopefully, government could offer more friendly policies to China autos manufacturers to encourage quality improvement and technology innovation.
